## PROJECT EXPERIENCE

**Merry Meals | Full Stack Developer & Team Leader**

Jun 2024 - Jul 2024

- Developed a comprehensive web application for meal ordering and delivery management using Laravel, MySQL, and Tailwind CSS.
  - Implemented multi-user functionality catering to members, caregivers, partners, volunteers, donors, and administrators.
  - Designed and integrated features for meal ordering, delivery tracking, donation processing, and system administration.
  - Utilized PHP and Laravel to create a robust backend, ensuring secure data management and efficient application performance.
-
